Portfolio

nexproc   GitHub - Live

Teamwork productivity app inspired by Asana.
- Single-page Backbone.js web application built with Ruby on Rails.
- Runs on a customized API, built from monkey-patched Backbone.js data structures to keep code DRY and view types modular.

Snake   Github - Live

In-browser Javascript version of the classic arcade game.
- You should play it

$bash Chess Github

Console-based chess game with user keyboard interface.
- it's awesome

Skills

Active Record	Ruby	Ruby on Rails	JQuery	AJAX	HTML/CSS
TDD (JUnit & Rspec)	Java	Javascript	Backbone.js	Git	Bootstrap
